

ACADEMY
at **CENTRAL**
"Whatever it Takes"

We are four year high school located in High Point. We offer a unique experience where all students complete one year of college free of charge, and have the opportunity to earn a scholarship for the second year.

The Academy offers two programs: Medical Career and Medical IT. Both of these pathways allow students to earn professional certifications. The Academy at Central does **Whatever it Takes** to ensure success for each and every child!

The Academy at Central is a magnet school in the Guilford County School district.

Guilford County is the third largest school district in North Carolina with over 70,000 students in 120 schools.

THE ACADEMY AT CENTRAL

**MEDICAL
INFORMATION
TECHNOLOGY**

What Ever It Takes!

MEDICAL INFORMATION TECHNOLOGY

The Medical IT program at the Academy consists of four classes with a focus on IT careers in the medical field:

- Computer Applications I and II
- Windows 7 Support/ Administration (2 blocks)

The first two classes focus on Microsoft Office in particular Word, Excel and Access.

The second half of the program is focused on Windows 7 support and implementation.

Microsoft® IT Academy Program Member

The Academy is one of only twenty-five high school Microsoft IT Academies in the world and the only one in North Carolina.

Students will be able to certify themselves in Office applications by taking the same exams industry professionals take. These professional certifications not only earn the student college credit, they give them an edge in the job market. Certified IT Professionals are hired at a far higher rate over non-certified IT professionals.

In the second part of the class students will explore Windows 7 implementation and support as part of the Microsoft Certified IT Professional certification. (MCITP)

LEARN FROM THE BEST

One of the advantages of being a Microsoft IT Academy is access to the official Microsoft courseware for all of our classes. Learn from the official MS textbooks, geared specifically towards helping students pass the certification exams. Students in addition keep their textbooks after they complete the program. These are valuable reference materials and students will use them for many years to come.
